

SOUTHERN SYMPOSIUM ON FOREGUT CANCERS

CORK 2011

ORGANISING COMMITTEE

Mr Criostoir O'Suilleabhain, Mercy University Hospital, Cork

Dr Derek Power, Mercy University Hospital, Cork

Dr Brian Bird, Bon Secours Hospital, Cork

Dr Martin Buckley, Mercy University Hospital, Cork

Professor Michael Maher, Cork University Hospital, Cork

Dr Peter McEneaney, Mercy University Hospital, Cork

Dr Aileen Flavin, Cork University Hospital, Cork

Dr Bill Bennett, Cork University Hospital, Cork

Dr Domhnall O'Halloran, Cork University Hospital, Cork

Ms Erica Mulvihill, Mercy University Hospital, Cork

Ms Peggy O'Keefe, Mercy University Hospital, Cork

SOUTHERN SYMPOSIUM ON FOREGUT CANCERS

CORK 2011

3RD SYMPOSIUM

The Multimodality Management of Gastrointestinal Neuroendocrine Tumours

MEET THE EXPERTS – NETS PATIENTS FORUM
PATIENT INFORMATION DISCUSSIONS

BOOLE LECTURE THEATRE 1, UNIVERSITY COLLEGE CORK

Sponsored by

BOOLE LECTURE THEATRE 1, UNIVERSITY COLLEGE CORK

16:00PM TO 17:00PM

PATIENT INFORMATION DISCUSSIONS

- 16.00 **A Patient's Perspective**
Mr Tommie Gorman, *Northern Editor, RTE*
- 16.12 **The Role of the Clinical Nurse Specialist**
Ms Lisa McGowan, *Clinical Nurse Specialist Oncology, St Vincent's University Hospital, Dublin*
- 16.24 **The Role of the Surgeon**
Mr Criostoir O'Suilleabhain, *Consultant Gastrointestinal and Hepatobiliary Pancreatic Surgeon, Mercy University Hospital, Cork*
- 16.36 **The Role of the Interventional Radiologist**
Dr Peter McEneaney, *Consultant Radiologist, Mercy University Hospital*
- 16.48 **The Role of the Endocrinologist in the Management of NETS**
Dr Domhnall O'Halloran, *Consultant Endocrinologist, Cork University Hospital*

MEET THE EXPERTS – NETS PATIENTS FORUM

17:00PM TO 18:00PM

Chairperson(s):

Dr Derek Power, *Consultant Medical Oncologist, Mercy University Hospital, Cork*
Mr Criostóir Ó Súilleabháin, *Consultant Gastrointestinal and Hepatobiliary Pancreatic Surgeon, Mercy University Hospital, Cork*

Professor Derek Manas

Professor Derek Manas has been a Consultant at the Freeman Hospital, Newcastle Upon Tyne where he has been the Head of the Department of Transplantation and Hepatobiliary Surgery since 1998. He is currently the Director of the recently established Institute of Transplantation. He has an active research portfolio with a special interest in the treatment of Hepatocellular Cancer, DCD Transplantation and Pancreatic Islet Cell transplantation. He spent a 6 month sabbatical in Hamburg developing his interest in Live Donor Liver Transplantation and has recently been involved in developing the UK guidelines for both Liver and Kidney live donation. He has been instrumental in establishing the Live Donor Liver Transplant programme in Newcastle and has established the Laparoscopic Liver resection service in his institution – with nearly 100 cases done. Currently his research interests include Organ Donor optimization, Cardio-pulmonary exercise testing in transplant recipients, Chemotherapy induced liver injury and gene profiling in soft tissue tumours. He is a NICE advisor and established and developed the Institute of Transplantation in Newcastle – to be officially opened in September 2011.

Professor Dermot O'Toole

Professor Dermot O'Toole is currently serving as an academic gastroenterologist in Beaujon University Hospital and the University of Paris 7 Diderot. His specialist area of interest includes diagnostic and therapeutic endoscopy in gastrointestinal cancer and especially endosonography for pancreato-biliary disorders. His main clinical and molecular research activities have focused on the realm of digestive neuroendocrine tumours. He has been principal investigator and/or coordinator in many national and international research activities in GI oncology and neuroendocrine tumours including studies involving EUS, chemoembolisation, biotherapy and angiogenesis. He is currently serving on the executive committee of the European Neuroendocrine Tumour Society (ENETS).

Professor Anders Sundin

Professor Anders Sundin is currently Professor of Radiology at the Karolinska Institute, Stockholm, Sweden. He was formerly at Uppsala University Hospital for twenty years where he worked mainly in the Radiology and Nuclear Medicine service for the Departments of Oncological Endocrinology and Endocrine Surgery. For four years he was Assistant Professor at Uppsala University before accepting the position as Professor at the Karolinska Institute. Both the clinical work at Karolinska University Hospital and research is concentrated on endocrine and neuroendocrine tumour imaging mainly using tomographic techniques. Since 1993 he has been involved in research and clinical applications on positron emission tomography (PET) imaging and development of new tracers for oncological PET. Professor Sundin is a member of European Neuroendocrine Tumour Society (ENETS) and its scientific advisory board and has participated in developing the ENETS guidelines for radiological imaging of neuroendocrine tumours. He has published scientific papers and book chapters mainly on endocrine and neuroendocrine imaging.

Dr Dan Granberg

Dr Dan Granberg is consultant at the Department of Endocrine Oncology, Uppsala University Hospital, which is the only department in the world specializing in taking care of patients with neuroendocrine tumours, and is one of the ENETS Centre of Excellence. He is a specialist in endocrinology and internal medicine and has 20 years' experience in endocrine oncology. Since 2007 he has been responsible for teaching medical students at the Endocrine Oncology Department. In 1995, he was awarded the Regnell prize at the Department of Medicine for his educational work. Over the years, he has given many lectures to medical students, doctors, and patients in Sweden and in other countries. Dr. Granberg is specially interested in neuroendocrine lung tumours and targeted irradiation therapy. He wrote his doctoral thesis on bronchial carcinoids. He is currently involved in several research projects in the field of neuroendocrine tumours.

Mr Tommie Gorman

Mr Tommie Gorman is the Northern Editor of RTE, the Irish national broadcasting service. In 1994, while based in Brussels, he contracted carcinoid cancer and he has been dealing with the challenge since while continuing to work full-time as a journalist. He made a television documentary about his experiences, "Europe, Cancer and Me." He is regularly contacted by individuals dealing with a neuroendocrine tumour condition. He served as a member of the Brennan Commission on Financial Management and Control Systems in the Health Service.

Aged 55, he is married to Ceara Roche. They have two children, Moya (18) and Joe (15) and live in Sligo.
